PROFESSIONAL SUMMARY

Motivated Computer Science (AI & ML) student with hands-on experience in machine learning, data analysis, and Python development. Strong foundation in building and optimizing ML models, data preprocessing, and visualization. Seeking opportunities to apply technical skills in real-world projects and contribute to innovative AI-driven solutions.

SKILLS

Python, Java Programming, SQL Database, Artificial Intelligence, Machine Learning, Data Analysis, Data Visualization, HTML, CSS, JavaScript, Pandas, NumPy, Matplotlib, Scikit-learn

EXPERIENCE

Intern – Jyesta Corporation Limited

- Developed and trained machine learning models using Python and Scikit-learn to improve prediction accuracy.
- Cleaned, preprocessed, and engineered datasets for optimized model performance.
- Performed data analysis and created visual dashboards to extract actionable insights.
- Collaborated with team members on AI/ML projects, contributing to performance improvements.
- Gained hands-on experience with real-world ML workflows and tools.

PROJECTS

- Built machine learning models for classification and prediction tasks.
- Conducted data preprocessing and feature engineering for improved model efficiency.
- Created data visualizations using Matplotlib and Python libraries.

EDUCATION

Bachelor of Technology in Computer Science (AI & ML)
GLA University, Mathura (Expected: May 2029)

CERTIFICATIONS

- AI for Beginners – HP LIFE
- Critical Thinking in the AI Era – HP LIFE
- Deloitte Australia Technology Job Simulation – Forage
- TATA GenAI Data Analytics Job Simulation – Forage
